

Act-Belong-Commit I.KRAC-Art Workshops and Exhibitions

Animals, Dwellings and the DNA of Life

By Christine Harrison and Dr Karl Richardson

Through a period of extensive research across Ethiopia, Africa, Ireland, Holland & France, Christine and Karl explore some of the underlying structures of life.

The exhibition presents large scale 2D works & a series of floor installations. Christine and Karl will facilitate interactive games/workshops for school groups.

Students will have the opportunity to interact with & contribute on a large scale installation through a process of exploration and discovery
